

MOHANA PRIYA

Chennai, Tamil Nadu | mohanabharani480@gmail.com | +91 9677143538 | LinkedIn

Professional Summary

Full Stack Developer with 2+ years of experience building scalable enterprise and e-commerce web applications using React.js, Next.js, Node.js, Express.js, TypeScript, PostgreSQL, and AWS. Skilled in designing microservices and micro-frontend architectures, crafting secure authentication pipelines, and optimizing API performance. Demonstrated success in managing full-stack project lifecycles from architecture design to production release.

Technical Skills

Languages & Frameworks: JavaScript (ES6+), TypeScript, HTML5, CSS3, React.js, Next.js, Node.js, Express.js, ASP.NET Core

State Management & Libraries: Redux, Redux-Saga, Ant Design, Bootstrap, Tailwind CSS

APIs & Databases: REST APIs, GraphQL, AWS AppSync, TypeORM, Entity Framework Core, PostgreSQL, MySQL

Cloud, DevOps & Tools: AWS (S3), Jenkins, Docker, Git, GitHub, AWS CodeCommit, CI/CD Pipelines

Architecture & Practices: Micro Frontends, Monorepo Architecture, Agile Scrum, Sprint Planning, Code Reviews, Release Management.

Professional Experience

Full Stack Developer

Revolite Infotech Pvt. Ltd. | Chennai

Jan 2026 – Present

Project: Mukizh – Apparel Inventory & Billing Web Application

- Architected core modules for inventory, stock tracking, and billing operations using React.js, Node.js, Express.js, and GraphQL, reducing manual billing time by 25%.
- Engineered 10+ reusable UI components with TanStack Table and integrated AWS AppSync GraphQL APIs with Redux-Saga, accelerating rendering efficiency and cross-component state synchronization.
- Implemented robust JWT authentication and fine-grained Role-Based Access Control (RBAC) to ensure secure multi-tenant user authorizations.
- Resolved 15+ high-priority production bugs and managed 10+ stable production releases utilizing Jenkins and AWS CodeCommit.

Project: Mukizh Fashion E-Commerce Platform

- Designed high-throughput backend APIs for product catalog, cart, and payment processing using Node.js, Express.js, TypeORM, and PostgreSQL.
- Integrated Razorpay payment gateway, AWS S3 storage streams, and automated Nodemailer/SMS OTP channels for secure transactions and media management.
- Built responsive web applications using Next.js and Tailwind CSS, leveraging server-side rendering (SSR) to improve page speeds and SEO performance.
- Streamlined deployment processes using Docker containerization, maintaining high availability across 10+ UAT and production releases.

Full Stack Developer & Trainer

Traiso Academy Pvt. Ltd. | Chennai

Sep 2024 – Dec 2025

Project: EliteHire360 – Recruitment Management System

- Developed reusable Micro Frontend modules using React.js and TypeScript within a Monorepo architecture for candidate and recruiter portals.
- Developed ASP.NET Core microservices with Entity Framework Core and PostgreSQL for candidate, job, and application management.
- Integrated gRPC services for communication between distributed backend microservices and frontend-backend API integration.
- Reduced manual candidate sourcing and shortlisting effort by approximately 15% through integrated candidate search and recruitment workflows.

Project: Fraud Identification Executive (FRIDEX)

- Developed React.js interfaces for government healthcare claim review, fraud identification, and audit workflows.
- Integrated Java-based REST APIs to retrieve, validate, and process beneficiary and healthcare claim data.

- Implemented reusable UI components and role-based access controls to support different audit workflows and user permissions.
- Contributed to debugging, data validation, and workflow enhancements to improve the accuracy and efficiency of healthcare claim audits.

Training & Mentorship

- Mentored 10+ junior developers and 15+ interns in JavaScript, React.js, and backend web design through structured training programs, resulting in a 100% successful deployment rate to live client projects.

Education

Bachelor of Computer Applications (Artificial Intelligence and Data Science)

Dr. M.G.R Educational and Research Institute

2021 – 2024
